Top Skills

Flask

Data Analysis

Python (Programming Language)

Prabanjan R

1x Hackathon Winner | AI & Machine Learning Developer | Computer Vision, NLP, Python, Flask | Building Intelligent Applications
Bengaluru, Karnataka, India

Summary

I build intelligent software systems that combine machine learning and backend development to solve real-world problems. My work focuses on areas like computer vision, natural language processing, and scalable web applications using Python and modern frameworks.

Skills

Python, C, C++

Data Structures & Algorithms

Machine Learning & AI

Computer Vision (YOLO, OpenCV)

Natural Language Processing

Flask & Backend Development

HTML, CSS

MySQL / DBMS

TensorFlow, Scikit-learn

Data Analysis & Model Deployment

Contact

Interested in collaborating, discussing ideas, or working on impactful projects.
